Every single step - from filling up the questionnaire to understanding your hair concerns to getting your Vedix customised box ready for delivery - is taken great care of.

And don't worry...while we take care of every single step in your hair care journey, we do not leave the ingredients behind.

Our Vedix products are not generic formulations with a group of ingredients which are used by thousands of people. At Vedix, each and every herb is chosen to go into your product after a thorough analysis of your answers in the Vedix questionnaire.

So, when you order your Vedix box, you can be sure that every ingredient present in your oil is picked just for you!

And that's not all!

Not only is each ingredient handpicked for you, but we also ensure the quality and safety of our ingredients by following this unique 3 step process:

#### Step 1: Herb Extraction

All the herbs for your Vedix products are handpicked and only the best part of the herb which is full of goodness is used in the products. Parts like the leaves, roots, seeds and sometimes the whole plant are used according to whatever suits the best for your ayurvedic hair profile!

#### Step 2: Distillation

Vedix ensures pure, precise and effective hair fall solutions by adopting a unique and modern method of distillation of herbs. This means that only the useful and the nutrient-rich part of the herb is used in the oil. Distilling also makes sure that the final extract is free of toxins like lead & mercury and other hair damaging compounds.

#### Step 3: Quality Certification

After the herb is extracted, it doesn't directly make its way into the products. Each ingredient we use goes through a thorough quality check and certification process. All our products are certified by the Department of AYUSH (Ayurveda, Yoga & Naturopathy, Unani, Siddha and Homoeopathy).

In brief, when you use any Vedix product, you can be sure that it is made with premium quality ingredients picked just for you, has gone through appropriate quality checks and is absolutely safe!

## VII. What Makes Vedix Unique?

Unlike generic anti-hairfall and hair growth formulations, Vedix begins with *you*.

That's why our expertly designed Vedix Questionnaire helps pinpoint your problem areas, letting us pick just the right herbs and ingredients for *your* problem.

By tackling the distressed doshas behind the symptoms of your hair problems, Vedix addresses the *root cause* of your hair issues.

#### What do other brands do?

While Vedix customises *your* products, other brands:

- Produce generic and weak formulations, mass produced for millions of people
- Don't address the *root cause* of your issue
- Often contain harmful chemical ingredients that can have side-effects

The very essence of Ayurveda is customised ingredients and products that target *your* unique issues and treat them. No generic brand does that.

#### How Our Different Approach Helps Reduce Your Hair Fall Visibly

At Vedix, we begin by building your current Ayurvedic profile. Your Ayurvedic profile is based on your body characteristics and habits. This information is crucial in understanding the imbalance in your body humors, ie, *doshas*.

Your products thus uniquely work on balancing your distressed doshas, and nourishing your scalp with the essential Ayurvedic nutrients required to strengthen your hair roots and stop hair fall.

Thus, Vedix addresses the *root cause* behind your unwanted hair problems.
